

Secure Success in MIPS and Ignite the Movement to Value-Based Care

The stakes in MIPS and value-based care are intensifying. CMS requirements for two-sided risk are escalating, and the industry as a whole is moving closer to value-based payment models. Don't let the administrative overhead of these programs jeopardize your standing in MIPS or crush the true mission of your healthcare practice.

SA Ignite helps you secure your success in MIPS and use the program as a catalyst to establish a performance improvement discipline for value-based care that your clinicians can appreciate—and adopt—for years to come. IgniteMIPS relieves the burden of MIPS overhead and turns your focus toward performance improvement opportunities that drive value for your organization.

Take the guesswork out of performance

IgniteMIPS provides full transparency into your performance data so you always know where you stand from an organizational perspective down to the individual clinician and measure.

- Monitor performance trends relative to organizational goals
- Drill into performance details to reveal workflow and training issues before it's too late
- Detect gaps in data completeness that otherwise go unnoticed in the EHR

EHR Measures (3) [Expand All](#)

- CMS185V6 | QID: 236 | NQF: 0018
Controlling High Blood Pressure
- CMS145V8 | QID: 007 | NQF: 0070
Coronary Artery Disease (CAD): Beta-Blocker Therapy-Prior Myocardial Infarction (MI) or Left Ventricular Systolic Dysfunction (LVEF <40%)
- CMS135V6 | QID: 005 | NQF: 0081
Heart Failure (HF): Angiotensin-Converting Enzyme (ACE) Inhibitor or Angiotensin Receptor Blocker (ARB) Therapy for Left Ventricular Systolic Dysfunction (LVSD)

IgniteMIPS measure sets and goal setting

Get all of your clinicians engaged in MIPS

IgniteMIPS helps you engage and motivate clinicians based on goals and objectives that are important to them. Align all clinicians to your broader organizational objectives for MIPS and value-based care.

- Set goals for quality measures that make sense for your organization and your clinicians
- Create measure sets to manage performance for groups of specialists or departments
- Deliver intuitive and relevant scorecards your clinicians will immediately understand and value

IgniteMIPS scorecard

SA Ignite examines MIPS rules as they change: 1,400 pages 2X per year

About SA Ignite

SA Ignite helps healthcare providers achieve top performance scores and financial incentives in MIPS with our IgniteMIPS software and deep domain, technical and data expertise. We apply powerful analytics to complex regulatory programs, and surface meaningful improvement opportunities that are truly actionable. With these insights, our customers institute a management system that engages all stakeholders in achieving performance objectives in value-based care programs.

Maximize scores and financial outcomes

IgniteMIPS helps you secure your MIPS scores as expectations change and financial stakes increase.

- Understand how changing MIPS requirements impact your organization's performance
- Identify improvement opportunities that will boost your score and reimbursements the most
- Pinpoint where to take action and where to celebrate success—and leverage those successes to foster healthy competition

Comply without a second thought

SA Ignite takes the regulatory burden off your plate and makes MIPS compliance easy.

- Collaborate with SA Ignite regulatory experts all year to interpret the MIPS rules and examine how changes impact your performance
- Test the impact of MIPS submission decisions before you finalize your choices
- Submit in a click for all MIPS categories, and capture documentation in case of a CMS audit or calculation error
- Collaborate with a community of top MIPS performers to share best practices

MIPS is one of many value-based programs that may be in your portfolio. It can be the catalyst for change that permeates your entire organization. By working with SA Ignite and IgniteMIPS you remove administrative overhead of MIPS and re-focus your team on performance improvement initiatives that drive value.
